PRINCE2® Overview Course

Overview

The PRINCE2 Overview course provides attendees with knowledge and understanding necessary to be involved with PRINCE2 projects. The workshop is conducted over one day and touches on all the main aspects of the PRINCE2 method.

Who should attend

This course is suitable for anyone interested in gaining an appreciation of the PRINCE2 methodology. Project team members, project support teams and managers from other disciplines wishing to develop an understanding of PRINCE2. The PRINCE2 method is flexible and adaptable for any type and size of project, and offers an excellent management foundation for any member of staff. This course will outline the main concepts of PRINCE2.

Entry Requirements

There are no specific pre-requisites for this course.

Course Content

The purpose of this workshop is to educate and train project team members in the key aspects of the PRINCE2 method. The course includes the key areas of the method (Principles, Themes and Processes) and touches on the following topics.

1. PRINCE2 overview
2. Starting up a project
3. Business case
4. Project organisation
5. Initiating a project
6. Directing a project
7. Controlling a Stage
8. Managing Product Delivery
9. Scope management
10. Quality management
11. Control & coordination
12. Closing a project

What is PRINCE2?

PRINCE2 is a structured method for effective project management. It is designed to provide a framework covering the wide variety of disciplines and activities required within a project of any type in any environment.

PRINCE2 is a de facto standard used extensively by the UK government and is widely recognised and used in the private sector, both in the UK and internationally. PRINCE2 is based on the experience of scores of projects, project managers and project teams who have contributed.

PRINCE2 is a process-based approach to project management. The processes define the management activities to be carried out during the project. In addition, PRINCE2 describes a number of components that are applied within the appropriate activities.
